Profile

Highly motivated, self-taught developer, experienced in creating websites and web applications, seeking a role in a startup where I can continue to grow my full stack skills. Ever learning, inline CSS evangelist. React, Next.js, TypeScript, TailwindCSS, Prisma, SQL and NoSQL Document-oriented Databases.

Skills

- Competency in researching and learning
- Understanding and application of **React functional components and hooks**
- DOM manipulation with **JavaScript** (elements and events)
- Typing with **TypeSript**
- Proficiency in **CSS** styling (selector specificity, flexbox, grid)
- Understanding of **HTTP** (methods, request-response cycle)
- Ability to implement and consume **APIs**
- Comprehension of pre-rendering and hydration paradigm in **Next.js**
- **Next.js** App router
- Understanding of basic **SQL** statements and commands

Projects

Memory Game

A simple Pokemon themed memory game, where user has to find matching cards. Built with React, Tailwind and PokeAPI.

App   Git

Minesweeper

Minesweeper game. Uncover all tiles avoiding mines to win. Made with React and Tailwind.

App   Git

Blogging Site

Blogging site where users can create accounts, follow each other and create, delete and edit their posts. Express, MongoDB and vanilla JS on front-end.

App   Git
